DOMINION ORDERS IN COUNCIL.

(Ref. 1,561,821.)

AT THE GOVERNMENT HOUSE AT
OTTAWA.

Friday, the 27th day of March, 1908.

PRESENT:

HIS EXCELLENCY THE ADMINISTRATOR
OF THE GOVERNMENT IN COUNCIL.

THE Minister of the Interior states, under date the 6th March, 1908, that application has been made to the Department of the Interior by Mr. George H. Turner, of Mission City, B. C., for permission to purchase the west half of Section 1, the whole of Sections 2 and 3, and the south half of Section 4, in Township 4, Range 4, west of the 7th Meridian, in the Province of British Columbia, for the purpose of manufacturing brick and other products of clay.

The Minister further states that an inspection of the lands applied for has been made by the Crown Timber Agent of New Westminster, who reports that they contain very little merchantable timber; that such timber as there is on the land is not more than would be required to carry on the business which it is proposed to establish; and that while the lands in question have been frequently examined by timber cruisers no applications have been made for licences to cut timber thereon. It would appear also that the lands in question are precipitous, and therefore of little value for agricultural purposes;

That the tract for which Mr. Turner has made application is situated in unsurveyed territory, but as he prepared to establish an industry of some magnitude on lands which would otherwise seem to be of little value, it would appear to be in the public interest to favourably consider his application.

The Minister therefore recommends that he be authorised to reserve for the applicant the land for which he has applied, the timber, however, on the said lands remaining reserved to the Crown, and in the event of said applicant using any portion of said timber he shall be required to pay the regular timber permit dues thereon; and the said land be disposed of to the said applicant for the purpose mentioned, at the rate of \$1.00 an acre, upon his complying with the following conditions:

1. That he shall erect upon the property a plant of a capacity of at least fifty thousand bricks per week;

2. That such plant shall be in operation, and shall have actually produced not less than one million bricks, within three years from the date upon which the sale may be authorised;

3. That until the above conditions have been complied with and patent for the lands in question issued, he shall pay to the Crown the cost which may be incurred in properly guarding the merchantable timber in the vicinity from fire which may result from his operations;

4. That failure on the part of the applicant to comply with any of the conditions herein contained shall be followed by cancellation of the reservation and sale, and the forfeiture to the Crown of the amounts which may have been paid;

5. That the reservation and sale shall be subject to the rights of the Provincial Government of British Columbia in respect of the minerals which may be found to exist on or under the land;

6. That as soon as satisfactory evidence is furnished to show that the conditions herein contained have been fully complied with, the purchase price at the rate of \$1.00 an acre paid, and the land surveyed, a patent be issued in favour of the applicant for the lands in question, reserving thereout and therefrom the mines and minerals and also the coal which may be found to exist on or under such land.

The Minister observes that Mr. Turner has also submitted an application for permission to acquire the fractional south-west quarter of Section 2, Township 7, Range 26, west of the 6th Meridian, containing an area of 144.75 acres, more or less, upon which to erect a glazing plant in connection with the manufacture of the clay products from the lands above described. The Agent of Dominion Lands at New Westminster reports that no applications have been made for permission to acquire this land for agricultural purposes, and that he is not aware of any objection to its being disposed of for the purpose which the applicant has in view.

The Minister also recommends,—as it would appear to be necessary for the successful carrying out of the enterprise contemplated, that the applicant should have, at some point of easy transportation, a plant for the treatment of the unfinished products of his manufacture,—that he be authorised to reserve for Mr. Turner the land in question, and to dispose of it to him at the rate of \$1.00 an acre, reserving the mines, minerals, coal and Provincial rights, subject, however, to the erection thereon and the actual operation within a period of three years from the date upon which the sale may be authorised, of a glazing plant of a capacity and design suitable for the purpose and satisfactory to the Minister of the Interior, and subject also to his having complied in every respect with the conditions and requirements above set out in connection with the purchase of land for the manufacture of brick and other clay products; the patent for the land to be issued as soon as satisfactory evidence is furnished to show that all the conditions above set out have been fully complied with.

The Committee submit the same for approval.
